

TODAY'S STANDARD

Scale Model of the Solar System

Analyze and interpret data to determine scale properties of objects in the solar system.

TODAY'S LEARNING GOAL

Scale Model of the Solar System

I *can...*

compare the size, distance,
and other properties of
objects in the solar system.

TODAY'S LEARNING GOAL

Scale Model of the Solar System

I *can*...

interpret data to put
the solar system in
proper scale.

TODAY'S LEARNING GOAL

Scale Model of the Solar System

I *can*...

use the scale to explain why space is so much bigger than it looks.

TODAY'S LEARNING GOALS

Scale Model of the Solar System

I can...

- compare the size, distance, and other properties of objects in the solar system.
- interpret data to put the solar system in proper scale.
- use the scale to explain why space is so much bigger than it looks.
