

TODAY'S STANDARD

Geoscience Processes

Construct an explanation based on evidence for how geoscience processes have changed Earth's surface at varying time and spatial scales.

TODAY'S LEARNING GOAL

Geoscience Processes

I *can...*

describe slow processes
like weathering and
erosion that change
Earth's surface.

TODAY'S LEARNING GOAL

Geoscience Processes

I *can...*

describe fast processes
like earthquakes and
volcanic eruptions.

TODAY'S LEARNING GOAL

Geoscience Processes

I *can...*

use evidence to explain
how these processes
shape the land at different
scales.

TODAY'S LEARNING GOALS

Geoscience Processes

I can...

- describe slow processes like weathering and erosion that change Earth's surface.
- describe fast processes like earthquakes and volcanic eruptions.
- use evidence to explain how these processes shape the land at different scales.
