

## TODAY'S STANDARD

*Interacting Body Systems*

Use argument supported by evidence for how the body is a system of interacting subsystems composed of groups of cells.

## TODAY'S LEARNING GOAL

*Interacting Body Systems*

# I *can*...

describe how groups of cells form tissues, organs, and body systems.

TODAY'S LEARNING GOAL

*Interacting Body Systems*

**I** *can...*

argue from evidence that the body is a system of smaller systems working together.

TODAY'S LEARNING GOAL

*Interacting Body Systems*

**I** *can...*

use an example to show what happens when one system breaks down.

## TODAY'S LEARNING GOALS

*Interacting Body Systems***I can...**

- describe how groups of cells form tissues, organs, and body systems.
- argue from evidence that the body is a system of smaller systems working together.
- use an example to show what happens when one system breaks down.
