

## TODAY'S STANDARD

*Role of Photosynthesis*

Construct a scientific explanation based on evidence for the role of photosynthesis in the cycling of matter and flow of energy into and out of organisms.

TODAY'S LEARNING GOAL

Role of Photosynthesis

**I** *can...*

explain how plants  
use sunlight to make  
their own food.

TODAY'S LEARNING GOAL

*Role of Photosynthesis*

**I** *can...*

describe how  
photosynthesis moves  
matter and energy into  
living things.

TODAY'S LEARNING GOAL

*Role of Photosynthesis*

**I** *can...*

use a model to show  
the inputs and outputs  
of photosynthesis.

## TODAY'S LEARNING GOALS

*Role of Photosynthesis***I can...**

- explain how plants use sunlight to make their own food.
- describe how photosynthesis moves matter and energy into living things.
- use a model to show the inputs and outputs of photosynthesis.
