

TODAY'S STANDARD

Effects of Ecosystem Change

Construct an argument supported by empirical evidence that changes to physical or biological components of an ecosystem affect populations.

TODAY'S LEARNING GOAL

Effects of Ecosystem Change

I *can...*

use evidence to show
how a physical change
affects a population.

TODAY'S LEARNING GOAL

Effects of Ecosystem Change

I *can...*

use evidence to show
how a biological change
affects a population.

TODAY'S LEARNING GOAL

Effects of Ecosystem Change

I *can*...

argue what's likely to happen when a key part of an ecosystem changes.

TODAY'S LEARNING GOALS

*Effects of Ecosystem Change***I can...**

- use evidence to show how a physical change affects a population.
- use evidence to show how a biological change affects a population.
- argue what's likely to happen when a key part of an ecosystem changes.
