

TODAY'S STANDARD

Endothermic & Exothermic

Undertake a design project to construct, test, and modify a device that either releases or absorbs thermal energy by chemical processes.

TODAY'S LEARNING GOAL

Endothermic & Exothermic

I *can*...

design a device that uses a chemical reaction to heat or cool something.

TODAY'S LEARNING GOAL

Endothermic & Exothermic

I *can*...

test how well my device works and collect data on temperature change.

TODAY'S LEARNING GOAL

Endothermic & Exothermic

I *can*...

modify my design
based on what I
learned from testing.

TODAY'S LEARNING GOALS

Endothermic & Exothermic

I can...

- design a device that uses a chemical reaction to heat or cool something.
- test how well my device works and collect data on temperature change.
- modify my design based on what I learned from testing.
