

## TODAY'S STANDARD

*Thermal Energy in Reactions (Design Project)*

Undertake a design project to construct, test, and modify a device that either releases or absorbs thermal energy by chemical processes.

## TODAY'S LEARNING GOAL

*Thermal Energy in Reactions (Design Project)*

# I *can*...

design a device that uses a chemical reaction to heat or cool something.

## TODAY'S LEARNING GOAL

*Thermal Energy in Reactions (Design Project)*

**I can...**  
test how well my device works and collect data on temperature change.

## TODAY'S LEARNING GOAL

*Thermal Energy in Reactions (Design Project)*

# I *can*...

modify my design  
based on what I  
learned from testing.

## TODAY'S LEARNING GOALS

*Thermal Energy in Reactions (Design Project)***I can...**

- design a device that uses a chemical reaction to heat or cool something.
- test how well my device works and collect data on temperature change.
- modify my design based on what I learned from testing.
