

TODAY'S STANDARD

Gravitational Interactions

Construct and present arguments using evidence to support the claim that gravitational interactions are attractive and depend on the masses of interacting objects.

TODAY'S LEARNING GOAL

Gravitational Interactions

I *can*...

use evidence to argue that gravity always pulls objects toward each other.

TODAY'S LEARNING GOAL

Gravitational Interactions

I *can*...

explain how more mass makes the gravitational pull stronger.

TODAY'S LEARNING GOAL

Gravitational Interactions

I *can*...

present my argument
with data, diagrams,
or models.

TODAY'S LEARNING GOALS

*Gravitational Interactions***I can...**

- use evidence to argue that gravity always pulls objects toward each other.
- explain how more mass makes the gravitational pull stronger.
- present my argument with data, diagrams, or models.
