Predicting Changes in Ecosystems

Predict how changes in the ecosystem affect the cycling of matter and flow of energy in a food web; and

TODAY'S LEARNING GOAL

Predicting Changes in Ecosystems

I *can*...

predict how a change in an ecosystem will ripple through a food web.

TODAY'S LEARNING GOAL

Predicting Changes in Ecosystems

I *can*...

explain how that change affects the cycling of matter and the flow of energy.

TODAY'S LEARNING GOAL

Predicting Changes in Ecosystems

I *can*...

use evidence to support
my prediction about what
would happen next.

TODAY'S LEARNING GOALS

*Predicting Changes in Ecosystems***I can...**

- predict how a change in an ecosystem will ripple through a food web.
- explain how that change affects the cycling of matter and the flow of energy.
- use evidence to support my prediction about what would happen next.
