

TODAY'S STANDARD

Electrical Circuits

Demonstrate that electrical energy in complete circuits can be transformed into motion, light, sound, or thermal energy and identify the requirements for a functioning electrical circuit; and

TODAY'S LEARNING GOAL

Electrical Circuits

I can...

build a complete circuit
and identify the parts that
make it work.

TODAY'S LEARNING GOAL

Electrical Circuits

I can...

show how electrical energy can be transformed into motion, light, sound, or heat.

TODAY'S LEARNING GOAL

Electrical Circuits

I can...

explain why a circuit has to be closed for the energy transformation to happen.

TODAY'S LEARNING GOALS

*Electrical Circuits***I can...**

- build a complete circuit and identify the parts that make it work.
- show how electrical energy can be transformed into motion, light, sound, or heat.
- explain why a circuit has to be closed for the energy transformation to happen.
