

TODAY'S STANDARD

How Light Travels

Demonstrate and explain how light travels in a straight line and can be reflected, refracted, or absorbed.

TODAY'S LEARNING GOAL

How Light Travels

I *can*...

demonstrate that light travels in a straight line until something changes its path.

TODAY'S LEARNING GOAL

How Light Travels

I can...

show what happens when light is reflected, refracted, or absorbed.

TODAY'S LEARNING GOAL

How Light Travels

I can...

explain why I see different things depending on how light interacts with materials.

TODAY'S LEARNING GOALS

*How Light Travels***I can...**

- demonstrate that light travels in a straight line until something changes its path.
- show what happens when light is reflected, refracted, or absorbed.
- explain why I see different things depending on how light interacts with materials.
