

TODAY'S STANDARD

Resource Management

Research and describe the types and uses of Earth's natural resources, including renewable and nonrenewable resources, and explain how resource management practices affect these resources.

TODAY'S LEARNING GOAL

Resource Management

I *can*...

describe types of natural resources and how renewable and nonrenewable resources differ.

TODAY'S LEARNING GOAL

Resource Management

I *can*...

explain how resource management practices affect what's available in the future.

TODAY'S LEARNING GOAL

Resource Management

I *can*...

give examples of good and bad management of a real resource.

TODAY'S LEARNING GOALS

*Resource Management***I can...**

- describe types of natural resources and how renewable and nonrenewable resources differ.
- explain how resource management practices affect what's available in the future.
- give examples of good and bad management of a real resource.
