

TODAY'S STANDARD

Managing Energy Resources

Compare the advantages and disadvantages of using various energy resources, including fossil fuels, nuclear, solar, wind, hydroelectric, geothermal, and biomass, and analyze how each source affects the environment.

TODAY'S LEARNING GOAL

Managing Energy Resources

I *can*...

compare advantages and disadvantages of fossil fuels, nuclear, and renewable sources.

TODAY'S LEARNING GOAL

Managing Energy Resources

I *can*...

analyze how each energy source affects the environment.

TODAY'S LEARNING GOAL

Managing Energy Resources

I *can*...

make a case for which
energy mix makes the
most sense for the future.

TODAY'S LEARNING GOALS

*Managing Energy Resources***I can...**

- compare advantages and disadvantages of fossil fuels, nuclear, and renewable sources.
- analyze how each energy source affects the environment.
- make a case for which energy mix makes the most sense for the future.
