

## TODAY'S STANDARD

*Biotic & Abiotic Competition*

Identify and describe biotic and abiotic factors in ecosystems and investigate how organisms compete for these resources, including sunlight, water, soil, space, food, and shelter.

TODAY'S LEARNING GOAL

*Biotic & Abiotic Competition*

**I** *can...*

identify biotic and abiotic factors in an ecosystem.

## TODAY'S LEARNING GOAL

*Biotic & Abiotic Competition*

# I *can*...

investigate how organisms compete for sunlight, water, soil, space, food, and shelter.

## TODAY'S LEARNING GOAL

*Biotic & Abiotic Competition*

# I *can*...

explain how competition shapes which organisms thrive in an ecosystem.

## TODAY'S LEARNING GOALS

*Biotic & Abiotic Competition***I can...**

- identify biotic and abiotic factors in an ecosystem.
- investigate how organisms compete for sunlight, water, soil, space, food, and shelter.
- explain how competition shapes which organisms thrive in an ecosystem.
