

## TODAY'S STANDARD

*Comparing Organisms*

Compare and contrast the structure and function of unicellular and multicellular organisms, including the levels of organization in multicellular organisms from cells to tissues to organs to organ systems to organism.

## TODAY'S LEARNING GOAL

## Comparing Organisms

# I *can*...

compare and contrast  
unicellular and  
multicellular organisms.

## TODAY'S LEARNING GOAL

## Comparing Organisms

# I *can*...

trace the levels of organization from cells to tissues to organs to systems to organism.

## TODAY'S LEARNING GOAL

## Comparing Organisms

# I *can*...

explain why multicellular organisms need this kind of organization to function.

## TODAY'S LEARNING GOALS

*Comparing Organisms***I can...**

- compare and contrast unicellular and multicellular organisms.
- trace the levels of organization from cells to tissues to organs to systems to organism.
- explain why multicellular organisms need this kind of organization to function.
