

TODAY'S STANDARD

Classify Elements

Classify elements using the organization of the periodic table, including metals, nonmetals, and metalloids, and describe patterns in their physical properties.

TODAY'S LEARNING GOAL

Classify Elements

I *can*...

use the periodic table to classify elements as metals, nonmetals, or metalloids.

TODAY'S LEARNING GOAL

Classify Elements

I *can*...

describe patterns in physical properties as I move across or down the table.

TODAY'S LEARNING GOAL

Classify Elements

I *can*...

explain how the table's organization helps me predict an element's behavior.

TODAY'S LEARNING GOALS

*Classify Elements***I can...**

- use the periodic table to classify elements as metals, nonmetals, or metalloids.
- describe patterns in physical properties as I move across or down the table.
- explain how the table's organization helps me predict an element's behavior.
