

TODAY'S STANDARD

Energy Transformations in Systems

Investigate and describe how energy is transformed from one form to another in different systems, including mechanical, thermal, electrical, sound, light, and chemical energy.

TODAY'S LEARNING GOAL

Energy Transformations in Systems

I can...

investigate how energy changes from one form to another in a system.

TODAY'S LEARNING GOAL

Energy Transformations in Systems

I can...

trace energy through forms like mechanical, thermal, electrical, sound, light, or chemical.

TODAY'S LEARNING GOAL

Energy Transformations in Systems

I *can*...

describe the energy story
of a system from start to
finish.

TODAY'S LEARNING GOALS

*Energy Transformations in Systems***I can...**

- investigate how energy changes from one form to another in a system.
- trace energy through forms like mechanical, thermal, electrical, sound, light, or chemical.
- describe the energy story of a system from start to finish.
