

TODAY'S STANDARD

Matter in the Biosphere

Describe how ecosystems are sustained by the continuous flow of energy and the recycling of matter and nutrients within the biosphere.

TODAY'S LEARNING GOAL

Matter in the Biosphere

I *can*...

describe how energy flows through an ecosystem in a continuous one-way path.

TODAY'S LEARNING GOAL

Matter in the Biosphere

I *can*...

explain how matter and nutrients are recycled within the biosphere.

TODAY'S LEARNING GOAL

Matter in the Biosphere

I *can*...

compare how matter cycles while energy keeps moving forward.

TODAY'S LEARNING GOALS

*Matter in the Biosphere***I can...**

- describe how energy flows through an ecosystem in a continuous one-way path.
- explain how matter and nutrients are recycled within the biosphere.
- compare how matter cycles while energy keeps moving forward.
