

TODAY'S STANDARD

Taxonomy

Describe the classification system used to organize living things, including the hierarchical levels of domain, kingdom, phylum, class, order, family, genus, and species.

TODAY'S LEARNING GOAL

Taxonomy

I *can*...

describe the levels of classification from domain down to species.

TODAY'S LEARNING GOAL

Taxonomy

I *can*...

explain why scientists use this system to organize living things.

TODAY'S LEARNING GOAL

Taxonomy

I *can...*

use the system to show
how two organisms are
related.

TODAY'S LEARNING GOALS

*Taxonomy***I can...**

- describe the levels of classification from domain down to species.
- explain why scientists use this system to organize living things.
- use the system to show how two organisms are related.
