

## TODAY'S STANDARD

*Compare Elements & Compounds*

Compare and contrast elements and compounds in terms of atoms and molecules, chemical symbols, and chemical formulas.

## TODAY'S LEARNING GOAL

*Compare Elements & Compounds*

# I *can*...

explain how an element is different from a compound using atoms and molecules.

## TODAY'S LEARNING GOAL

*Compare Elements & Compounds*

# I *can*...

use chemical symbols and chemical formulas to tell elements and compounds apart.

## TODAY'S LEARNING GOAL

*Compare Elements & Compounds*

# I *can*...

compare and contrast an element and a compound and give an example of each.

## TODAY'S LEARNING GOALS

*Compare Elements & Compounds***I can...**

- explain how an element is different from a compound using atoms and molecules.
- use chemical symbols and chemical formulas to tell elements and compounds apart.
- compare and contrast an element and a compound and give an example of each.
