

## TODAY'S STANDARD

*Aqueous Solutions*

Describe aqueous solutions in terms of solvent and solute, including the role of water as a solvent for many common substances.

## TODAY'S LEARNING GOAL

*Aqueous Solutions*

# I *can*...

describe an aqueous solution in terms of its solvent and its solute.

## TODAY'S LEARNING GOAL

*Aqueous Solutions*

# I *can*...

explain why water is called the universal solvent for so many substances.

## TODAY'S LEARNING GOAL

*Aqueous Solutions*

# I *can*...

identify the solvent and solute in a real-world solution.

## TODAY'S LEARNING GOALS

*Aqueous Solutions***I can...**

- describe an aqueous solution in terms of its solvent and its solute.
- explain why water is called the universal solvent for so many substances.
- identify the solvent and solute in a real-world solution.
