

TODAY'S STANDARD

Calculating Average Speed

Calculate and describe the average speed of an object using distance and time measurements.

TODAY'S LEARNING GOAL

Calculating Average Speed

I can...

calculate the average speed of an object using distance and time.

TODAY'S LEARNING GOAL

Calculating Average Speed

I can...

use the speed formula to solve real-world motion problems.

TODAY'S LEARNING GOAL

Calculating Average Speed

I can...

describe what an object's average speed tells me about its motion.

TODAY'S LEARNING GOALS

*Calculating Average Speed***I can...**

- calculate the average speed of an object using distance and time.
- use the speed formula to solve real-world motion problems.
- describe what an object's average speed tells me about its motion.
