

TODAY'S STANDARD

Distance-Time Graphs

Analyze and interpret distance-time graphs to describe the motion of an object.

TODAY'S LEARNING GOAL

Distance-Time Graphs

I can...

read a distance-time graph
and describe an object's
motion from it.

TODAY'S LEARNING GOAL

Distance-Time Graphs

I can...

identify when an object is moving fast, slow, stopped, or changing direction on a graph.

TODAY'S LEARNING GOAL

Distance-Time Graphs

I can...

match a real motion story
to the distance-time graph
that fits it.

TODAY'S LEARNING GOALS

*Distance-Time Graphs***I can...**

- read a distance-time graph and describe an object's motion from it.
- identify when an object is moving fast, slow, stopped, or changing direction on a graph.
- match a real motion story to the distance-time graph that fits it.
