

## TODAY'S STANDARD

*Life on Earth*

Describe the unique conditions that allow for the existence of life on Earth, including liquid water, a suitable temperature range, an atmosphere, and distance from the sun.

## TODAY'S LEARNING GOAL

*Life on Earth*

# I *can*...

describe the conditions  
that make Earth able to  
support life.

## TODAY'S LEARNING GOAL

*Life on Earth*

# I *can*...

explain why liquid water, temperature, atmosphere, and distance from the Sun all matter.

## TODAY'S LEARNING GOAL

*Life on Earth*

# I *can*...

compare Earth to other planets to see why they can't support life as we know it.

## TODAY'S LEARNING GOALS

*Life on Earth***I can...**

- describe the conditions that make Earth able to support life.
- explain why liquid water, temperature, atmosphere, and distance from the Sun all matter.
- compare Earth to other planets to see why they can't support life as we know it.
