

## TODAY'S STANDARD

*Disruptions in Ecosystems*

Explain how disruptions such as population changes, natural disasters, and human intervention impact the transfer of energy in food webs in ecosystems.

## TODAY'S LEARNING GOAL

*Disruptions in Ecosystems*

# I *can*...

explain how disruptions like population changes or natural disasters affect food webs.

## TODAY'S LEARNING GOAL

*Disruptions in Ecosystems*

# I *can*...

describe how human intervention can change the energy flow in an ecosystem.

## TODAY'S LEARNING GOAL

*Disruptions in Ecosystems*

# I *can*...

predict the ripple effects  
when one part of a food  
web is disrupted.

## TODAY'S LEARNING GOALS

*Disruptions in Ecosystems***I can...**

- explain how disruptions like population changes or natural disasters affect food webs.
- describe how human intervention can change the energy flow in an ecosystem.
- predict the ripple effects when one part of a food web is disrupted.
