

TODAY'S STANDARD

Adaptations for Survival

Describe how variations of traits within a population lead to structural, behavioral, and physiological adaptations that influence the likelihood of survival and reproductive success of a species over generations.

TODAY'S LEARNING GOAL

Adaptations for Survival

I *can*...

describe how variations in traits lead to structural, behavioral, and physiological adaptations.

TODAY'S LEARNING GOAL

Adaptations for Survival

I *can...*

explain how those adaptations affect survival and reproductive success.

TODAY'S LEARNING GOAL

Adaptations for Survival

I *can*...

give an example of how a useful adaptation spreads through a species over generations.

TODAY'S LEARNING GOALS

*Adaptations for Survival***I can...**

- describe how variations in traits lead to structural, behavioral, and physiological adaptations.
- explain how those adaptations affect survival and reproductive success.
- give an example of how a useful adaptation spreads through a species over generations.
