

## TODAY'S STANDARD

*Electromagnetic Waves*

Explain the use of electromagnetic waves in applications such as radiation therapy, wireless technologies, fiber optics, microwaves, ultraviolet sterilization, astronomical observations, and X-rays.

## TODAY'S LEARNING GOAL

*Electromagnetic Waves*

# I can...

explain how  
electromagnetic waves are  
used in everyday  
technology.

## TODAY'S LEARNING GOAL

*Electromagnetic Waves*

# I can...

give examples like wireless signals, fiber optics, microwaves, and X-rays.

## TODAY'S LEARNING GOAL

*Electromagnetic Waves*

# I can...

match a type of  
electromagnetic wave to  
the job it does.

## TODAY'S LEARNING GOALS

*Electromagnetic Waves***I can...**

- explain how electromagnetic waves are used in everyday technology.
- give examples like wireless signals, fiber optics, microwaves, and X-rays.
- match a type of electromagnetic wave to the job it does.
